Professional Summary

Full Stack Engineer with 4+ years of experience building scalable, production-grade web applications using MERN stack and modern backend technologies. Proven expertise in designing real-time systems, AI-powered platforms, and payment-integrated applications. Strong experience in React, Node.js, FastAPI, WebSockets, and cloud-based architectures. Focused on performance, scalability, and clean system design.

Technical Skills

Frontend:

HTML, CSS, Javascript, React.js, TypeScript, Redux Toolkit, Tailwind CSS

Database:

MongoDB (Atlas), SQL

Tools:

Git, Postman, Server Deployment

Backend:

Node.js, Express.js, FastAPI (Python), REST APIs, WebSockets

Integrations:

Stripe, Razorpay, Shiprocket, Cloudinary

Concepts:

System Design, Real-time Systems, API Optimization, Authentication

Work Experience

React.js + Backend Engineer

Business websoft Pvt Ltd.

Apr 2025 – present
Zirakpur, India

- Developed scalable frontend applications using **React.js + TypeScript**, improving UI performance and maintainability
- Built backend services using **FastAPI (Python)** for high-performance API handling
- Implemented **real-time communication using WebSockets**, enabling live interactions in AI interview systems
- Integrated **Stripe payment gateway** for secure and scalable payment workflows
- Worked with **Azure Voice APIs** to enable real-time AI-based interview interactions
- Optimized API response times and reduced latency in data-heavy operations
- Designed modular architecture improving code reusability and scalability

MERN Stack Developer

Technonize media

Jul 2022 – Apr 2025
Amritsar, Punjab

- Built and deployed full-stack eCommerce platforms using MERN stack
- Designed REST APIs and optimized MongoDB queries for high-performance data handling
- Integrated **Razorpay payment gateway** and **Shiprocket logistics APIs**
- Managed end-to-end deployment and server configurations
- Collaborated directly with clients to deliver customized, production-ready solutions

Graduate Engineer Trainee

Buzzclan

Jan 2022 – Jun 2022
Mohali, Punjab

- Debugged and optimized HRMS applications using JavaScript and SQL
- Improved application stability by resolving production issues

Projects

AI-Powered Interview Platform & Candidate Portal

- Architected and developed a **real-time AI interview platform**
- Implemented **WebSocket-based live interaction system** for AI-driven interviews
- Built scalable frontend using React with modern SaaS UI patterns
- Designed backend services using FastAPI for AI processing and evaluation
- Developed automated scoring system (Fit, Resume, Composite Scores)
- Created dashboards for candidate analytics and decision-making

Roarfit – eCommerce Fitness Platform

- Built a production-grade **eCommerce platform** using MERN stack
- Integrated **Razorpay, Stripe, Snapmint (EMI)** for multi-payment support
- Implemented **Shiprocket** for order fulfillment and tracking
- Developed scalable APIs for product, cart, and order management
- Optimized checkout flow and performance for better user conversion

StudyNotion (EdTech Platform)

Developed a dynamic Ed-Tech platform using the MERN stack for content creation, consumption, and rating

- Developed a scalable MERN-based learning platform
- Implemented authentication, role-based access, and payment systems
- Integrated **Razorpay** and **Cloudinary** for payments and media handling

PHED Rajasthan – Water Billing System

- Developed features for **water bill generation and payment system**
- Built APIs for **consumer data, billing cycles, and payment tracking**
- Enabled users to **view, download, and pay bills online**
- Designed scalable backend logic for handling large user data
- Ensured system reliability for government-level operations

Education

Bachelor of Technology in Computer Science

Malout Institute of Management and Information Technology.

2017 – 2021
Malout

Secondary Education

Senior Secondary Residential School For Meritorious Students

2017
Ludhiana

Key Achievements

- Built real-time AI system using WebSockets + FastAPI
- Delivered multiple production-grade full-stack applications
- Strong experience in payment systems and cloud integrations
- Experience working directly with clients and scalable systems
